Glossaries Language Module: glossaries-swedish

Robert Nyqvist

Based on glossaries-*language* by Nicola Talbot

version 1.0 (2016-03-05)

This language module simply needs to be installed. The glossaries package will automatically load it if required.

1 The Code

```
1 \@ifpackageloaded{polyglossia}%

This is unlikely to occur, since if polyglossia has been loaded then the glossaries-swedish-utf8.ldf file should've been loaded instead.
